*NAICS, North American Industry Classification System, is the industry classification system used by the statistical agencies of the United States. NAICS replaces the 1987 Standard Industrial Classification (SIC). The NAICS is used for classifying business establishments to assist with gathering data related to measuring productivity, unit labor costs, and the capital intensity of production, employment and other information. Missouri businesses are assigned a NAICS when the company files a “Report to Determine Liability Status” with the Missouri Department of Labor and Industrial Relations to determine Unemployment Tax Liability. Normally, a general business employer becomes liable for the tax and responsible for providing unemployment insurance for its workers when it:

- Pays $1,500 in wages (cash and in-kind) in a calendar quarter, or
- Has an employee in some portion of a day in each of 20 different weeks, or
- Becomes liable under the Federal Unemployment Tax Act (FUTA) and employs a worker in Missouri, or
- Acquires and continues without interruption substantially all the business of a liable employer.

If you don’t know your NAICS code please call (573) 751-3340. If your organization is not required to have an UI account and NAICS code, please indicate N/A on this form.**Provide the physical location where your project will take place. If your project takes place at more than one site, submit the addresses for all sites (street, city, county, 9-digit zip). You can find the 9-digit Zip code at: [www.usps.com](http://www.usps.com) Click on Quick Tools, then Look Up a ZIP Code.
